MATERIALS AND FINISHINGS

All our furniture is constructed to the highest standard using only the finest materials sourced from recognised and trusted quality suppliers.

LEATHER FABRIC

Only the best luxurious genuine leather is used on our furniture. Select from top grain, single-tone, hand-rubbed and pull-up leathers.

SOLID WOOD FRAME

Frames are made of solid wood to ensure strength, stability and durability. For additional security and to prevent movement, arms are reinforced with a solid 'L' brace. We offer a ten-year warranty as standard.

CUSHION CONSTRUCTION

A loose cushion design of varying densities of foam and duck feather filling - all resulting in a most comfortable of seating experiences.

CRAFTSMANSHIP

- Curved pillow arm.
- All-round panelled design.
- Duck feather cushion fillings for ultimate comfort.

DESIGN

High-legged contemporary sofa with slim pillow arm.

FEET

Enhanced with beautifully-proportioned 135mm solid wooden legs to complement the elegance of the sofa.

PACKAGING

Within a strong, recyclable 5-ply cardboard box, we wrap each sofa in a breathable fabric bag. The unique 'shoe-box' design with reinforced corners provides additional protection.
