on frames

## MATERIALS AND FINISHINGS

All our furniture is constructed to the highest standard using only the finest materials sourced from recognised and trusted quality suppliers.

### LEATHER FABRIC

Only the best luxurious genuine leather is used on our furniture. Select from top grain, single-tone, hand-rubbed and pull-up leathers.

### SOLID WOOD FRAME

Frames are made of solid wood to ensure strength, stability and durability. For additional security and to prevent movement, arms are reinforced with a solid 'L' brace. We offer a ten-year warranty as standard.

### CUSHION CONSTRUCTION

Loose cushions of varying densities of foam, topped with a layer of feather and down - all resulting in a most comfortable of seating experiences.

### CRAFTSMANSHIP

- Hand-rubbed voyager leather.
- Modular corner group with click-in system.

### DESIGN

Slim arms, low back and deep seats give this contemporary design a sleek appearance.

### FEET

75mm solid wooden feet designed to complement.

### PACKAGING

Within a strong, recyclable 5-ply cardboard box, we wrap each sofa in a breathable fabric bag. The unique 'shoe-box' design with reinforced corners provides additional protection.
